131 Canva Shortcuts download in pdf

How do I duplicate an element quickly in Canva?

Use **Ctrl + D** (Windows) or **Cmd + D** (Mac) to instantly duplicate selected items.

What is the shortcut to add text in Canva?

Press the **T** key. A text box will appear on the canvas automatically.

Is there a shortcut to add a shape like a circle or rectangle?

Yes! Press **C** for Circle, **R** for Rectangle, and **L** for Line.

How can I group or ungroup elements using the keyboard?

Select the elements, then press **Ctrl + G** (Group) or **Ctrl + Shift + G** (Ungroup). On Mac, use **Cmd** instead of **Ctrl**.

What is the shortcut to open quick actions in Canva?

Press **/** (forward slash). This opens the quick search/action bar where you can add elements, search, etc.

Is there a shortcut to zoom in or out on the Canva editor?

Yes: **Ctrl + +** to zoom in, **Ctrl + -** to zoom out. Press **Ctrl + 0** to reset to 100%. (Mac: **Cmd + + / - / 0**)

How to bring forward or send backward an element using shortcuts?

Use `Ctrl + ]` (bring forward), `Ctrl + [` (send backward). On Mac, use `Cmd + ]` and `Cmd + [`.
